

# NEWS IN BRIEF.

## THE EAST.

In South Acton, Mass., a few days ago, George Curtis, aged 8 years, took a boy named Lane, 3 years of age, into the woods, and there beat him with a club in a most shocking manner. Lane was soon discovered, but died of his injuries four hours after. The child-murderer fled, but was subsequently arrested. A young man and a young lady, accompanied by an infant brother of the latter, went out on the Niagara river on the Fourth for a boat ride, and getting in the current, were carried over the falls and dashed to pieces. The man and woman were to have been married the next day. Buffalo has been shaken by an earthquake. No damage, but considerable scare. Frank H. Walworth, the young man who shot his father at New York, and was convicted of murder in the second degree, has been sentenced to imprisonment for life. The youthful parricide listened unmoved to the dreadful sentence, and walked from the scene of the trial with a firm step, and in an apparently cheerful frame of mind. On his way to the Tombs, after sentence, he said: "I am glad I did not have to endure the long lecture I had anticipated Judge Davis would inflict upon me. I thoroughly understand my position, and did not desire any instruction in relation thereto. I simply wish time to arrange my affairs, and I shall then submit myself to my fate with all the equanimity I can command."

The young parricide, Frank Walworth, has taken up his quarters in Sing Sing Prison. The repairs to the steamer Tigress at the Brooklyn Navy Yard have proved such a bungling job that the vessel is less seaworthy than when she entered the docks, in consequence of which the search for the Polar is indefinitely postponed. It is probable that the steamship City of Washington will be floated and repaired. Had she struck 600 yards farther to the left, on the Little Rock Reef, her 700 souls would, beyond a doubt, have followed the victims of the Titanic. At the time of the disaster she was running at the good rate of nine knots an hour, notwithstanding a dense fog prevailed, and the Captain evidently had not the least idea of his whereabouts.

## THE WEST.

A two-story house fell in Mt. Carroll, Ill., the other day, and three persons were injured. It is feared, fatally. Capt. Randall, of the Twenty-third Infantry, and command, with 50 Apache scouts, recently surrounded a camp of Apache Indians in Arizona, and captured twenty-five warriors, with squaws and children. The next day, Delchay's camp was surrounded, and he, with the remainder of the once formidable band, to the number of 131, surrendered. Delchay says it is impossible for the Apaches to take their own trophies. They follow night and day. Sicknesse is reported along the Modoc trail at Fort Klamath. Close confinement is commencing to tell on Capt. Jack and Curly-headed Doctor. The former is weak, gaunt, and complaining. At Green Lake, Wis., on the morning of the Fourth, a picnic party went out on the lake in the sailing yacht H. B. Harshard, on a fishing excursion, and had proceeded but a short distance when a small struck the boat, capsizing it. The following persons were thrown into the water and drowned: Mrs. A. P. Carman, Mrs. Geo. Harding, Miss Annie Olin, Mrs. M. C. Russell and child, Wm. Blochman, wife and child, Mrs. John Baird, and a child of the Rev. Mr. Allen. The number of Modoc captives has been increased by the surrender of three more braves, with their women and children. A vast amount of property was destroyed by the recent storms in Illinois, Iowa, Missouri, Ohio and Indiana. Houses, fences and bridges were demolished, and in some sections serious loss of life is reported. The grain fields have suffered serious injury, the damage in Ohio alone being estimated at upward of \$2,000,000.

A company with \$300,000 capital has been organized in Cincinnati for the establishment of a zoological garden in that city. At Pioche, Nevada, the other day, a desperado named Harrington shot and killed four men because one of them killed his dog. W. H. Hazleton, a prominent Indianapolis lawyer, has squandered the funds in his hands belonging to various trusts, and sloped for parts unknown, leaving his friends and bondsmen in the lurch. A lively contest is going on for the Pacific terminus of the Northern Pacific railroad. Seattle offers, by way of donation, land and money estimated at \$1,000,000, and is still adding. Two offers the entire control of the water-front of the city, and a large amount of land in case Seattle does not get the terminus. Gen. Stanley, in charge of the military expedition securing the engineers of the Northern Pacific railway, reports that the survey of the road has been made to a point seventy miles west of Bismarck, Dakota. The route traverses a finely watered and fertile country, and cuts through ample coal deposits twenty-seven miles west of the Missouri river.

LOUI GORDON, who was lately robbed of \$44,000 in bonds, supposed by detectives to lure him over the river, was seized recently, near Fort Gary, by two officers from Minneapolis, and brought to disputed territory near Pembina, where he was rescued, and the officers arrested by a squad of troops from Fort Dufferin. It is said Gordon was made drunk and gagged by his captors. The plan for Gordon's arrest was laid at Minneapolis, where Marshall O. Roberts, of New York, and representatives of the estate of Horace F. Clark have been for some time. Roberts and Clark some time ago gave bonds (\$37,000) for Gordon's appearance in the suit with Jay Gould. Gordon is also wanted by New York parties on other accounts. A half mile of the Missouri Pacific railroad track near Kippacko, Kansas, dropped into the river a few days ago. It sank out of sight in the flooded stream in one lurch, and without warning. It seems that the river undermined the track without the knowledge of railroad men. The water where the track was situated is now 40 feet deep. Railroad men say it is the most fearful rent ever seen. The escape of trains was almost miraculous. A St. Paul dispatch of the 8th says: The steamer Anna Doty from Kalamazoo river, Michigan, by way of the Fox and Wisconsin rivers, arrived this noon. She left Kalamazoo June 27. The Chicago Tribune, of the 10th inst., prints reports of the crops in various sections of Illinois, Iowa, Ohio and Indiana. In the two first named States, notwithstanding the recent heavy rains, the prospect is exceedingly flattering. In those sections of Ohio and Indiana that were visited by the late storms every species of grain have been irretrievably damaged, and the crops will prove almost a total failure in some localities.

## THE SOUTH.

The farmers of Tennessee met in convention at Humboldt, in that State, the other day, and organized a State Grange. They adopted measures setting forth the necessity of thorough organization, and expressing hearty cooperation with the farmers in the Northwest in their fight against unjust railroad and other monopolies. The establishment of subordinate Granges throughout the State was recommended. A Washington dispatch says: Private dispatches from Alabama represent a terrible condition of affairs in some parts of the State. The cholera is raging at a fearful rate. Towns are being depopulated, the residents of which are leaving in order to escape the terrible scourge, and it is reported that

in a place containing about 1,000 inhabitants deaths have occurred to the extent of twenty-seven in one day.

A DISPATCH from Houston, Texas, says the weather is more favorable to the crops, and worms no longer appear in Texas. Two-thirds of the crop of cotton and cereals are very fine.

The statement telegraphed from the South that the cholera was raging in Alabama was wholly false. It has appeared in but one or two towns. Reports to the Agricultural Department at Washington from the cotton regions indicate that the crop of that staple this year will at least be equal to that of last.

## WASHINGTON.

The Hon. Wm. B. Allison and other distinguished citizens of Iowa have petitioned the Attorney-General to compel the Union Pacific railroad to operate its road in connection with its branches as a continuous line in the manner required by acts of Congress. It appears an unjust discrimination is made by the Union Pacific against the Kansas Pacific and other branches in charging heavy local freight and passenger rates on all business from their branches, thus practically cutting them off from the through traffic. The Attorney-General's decision will have an important bearing upon the finances of the Union Pacific. There is \$78,000,000 in coin and coin certificates in the Treasury. A Washington dispatch of the 4th says: The Government counsel have not yet decided what to do to offset the combined movement of the Union Pacific railroad for the purpose of defeating the Credit Mobilier suit, and the matter remains a very unsuppressing condition.

It is authoritatively stated that neither the President nor Secretary of the Interior will interfere in behalf of the Modoc prisoners, but that the finding of the court-martial will be approved. A DEFICIT of nearly one million dollars having been discovered in the accounts of the Secretary of the Interior Jacob Thompson, who resigned his position in President Buchanan's Cabinet, in 1861, to join the rebellion, an examination has revealed the fact that the defalcation was committed by one of his clerks. It is stated that the civil service rules, as modified, are being strictly enforced in all the departments. The committee appointed to investigate the financial management of the Howard University have submitted their report, in which they completely exonerate Gen. Howard from the charge of misappropriation of the funds of the institution. They say: "The recorded proceedings of the Board of Trustees will show that no single dollar of the university money was ever voted as a gratuity to Gen. Howard, nor any money at any time, under any pretext, to which he was not justly entitled, in consideration for valuable and indispensable services, faithfully rendered."

## FOREIGN.

THE German Government has invested \$10,000,000 of its surplus funds, which the French indemnity has made to overflow, in United States 5 per cent. bonds. The Spanish vote has passed, by an almost unanimous vote, a bill conferring discretionary and extraordinary powers on the Government. There is a bitter state of feeling existing in England, especially among the Low Church party, at the introduction of the confession in the Established Church. The receipts from internal revenue in the United Kingdom for the fiscal year were £76,996,000, a decrease of £370,000 from the preceding year. Birmingham and Wolverhampton journals express alarm at the decrease of orders for hardware from America, and at the remarkable development of the trade in the United States, whose manufacturers are supplanting those of England in the colonies and South America. Eight thousand Berlin weavers are on a strike for an advance of 33 per cent. in wages. The Federal Republic of Cuba has issued an address calling upon the insurgents to return to their allegiance. The crop prospects indicate less than an average yield throughout Ontario.

The Constitutional Committee has submitted to the Spanish Cortes its draft of a Federal Constitution for the Republic. It provides that the President shall hold office for four years, and for one term only; also, that Spain be divided into eleven States—Catala, Porto Rico and the other colonies being denominated Territories. Holland has made no settlement of any kind with the Acheens, and could not listen, the Colonial Minister says, to such proposals as those who are recently reported to have been made. A second expedition against Acheen has been fitted out by the Government. The Emperor of Germany is again on his legs. The Bank of England forgery have been examined at London, and fully commended for trial. Seven hundred and fifty Modoc emigrants have left Liverpool for America in the steamship Wisconsin. Caspella has resigned the Presidency of the Cuban Republic, and is succeeded by Salvador Cisneros.

In consequence of the passage of the bill abolishing constitutional guarantees, the Irreconcilable Deputies have withdrawn from the Cortes, which action has served to restore quiet in Madrid. The new Constitution of Spain provides that the President of the Republic must have been born in the Spanish territory and be 25 years of age. The Spanish territory is divided into Cantons like the Swiss Republic. The Assembly of each Canton is to elect four Senators, and Deputies are to be chosen by universal suffrage. Cuba and Porto Rico are to be assimilated with the Cantons of Spain. The Canada Pacific Railway Investigation Committee have adjourned their sittings till Aug. 13. The New York Herald has been convicted of libel in a Paris court, and fined 7,000 francs. The anniversary of the independence of the United States was duly celebrated in London by a banquet at Willis' rooms, at which all the prominent Americans there were present. The day was similarly observed at Paris, Berlin, Vienna and other leading cities of the Continent, the American Ministers presiding at nearly all the celebrations.

The Shah of Persia arrived in Paris on the 7th inst., and had a warm reception. He visits Italy next. A Havana telegram says that several hundred vagrants recently sent to work on the trocha have deserted and joined the insurgents. It is officially announced from St. Petersburg that the King of Rivia and his Ministers, who fled from the capital upon the approach of the Russian troops, have returned and submitted to Gen. Kaufman, beseeching his clemency, and imploring his merciful consideration. The General, pending his disposition of their cases, has placed them under guard.

EX-EMPEROR RUSSIA has been interviewed by a correspondent of the New York World. She predicts that France will speedily return to Bonapartism, and that she will become the conservator of European peace and order, and the extirpator of all communistic and anti-Christian societies. France will again lead the world, will restore the Pope to his old dignity, and pulverize Germany into insignificant States. Another foreign steamer has been wrecked near the baleful Sambo Light, which drew the Atlantic to its destruction, but there is, happily, no loss of life. The Inman steamship City of Washington, from Liverpool for New York, struck on Gull Rock, 70 miles west of Sambo, on Saturday, the 24th inst. There was a dense fog at the time. All the passengers and crew, with their baggage, were landed safely. The ship was fought on a total wreck. A duel was fought on Luxembourg territory, on the 7th inst., between M. Ranc, a member of the French As-

sembly, and Paul de Cassagne, the famous fighting editor of Paris, in which the latter was seriously and the former slightly wounded. The New York Herald's dispatch confirms the arrival of Sir Samuel and Lady Baker at Khartoum, on the Upper Nile. An important geographical discovery is said to have been made by Baker which will extend the scientific world, as it pretends that Lake Tanganyika and Albert Nyanza prove to be one and the same water, and a magnificent inland sea 700 miles in length.

COL. MACKENZIE'S invasion of Mexico in pursuit of the Kickapoo seems to have occasioned even less excitement there than in this country. The newspapers of the city of Mexico refer to the matter only to chronicle the absence of any feeling on the subject among the Mexicans. True bills have been found against George Bidwell, Austin Bidwell, George Bidwell and Edwin Noyes, the Bank of England forgers, and they will be tried at the Old Bailey in August. Eighteen Norwegians, belonging to the German Arctic Navigation Company's service, who were left on one of the Spitzbergen group of islands, were found dead by the party which went to their relief. Don Carlos has ordered the arrest of the Cure of Santa Cruz.

WINNING GOLDEN OPINIONS.—Perhaps no man living has won more golden opinions than Dr. Walker, as the enormous and widely increasing sale of his CALIFORNIA VINEGAR BITTERS attests. We never look into one of our exchanges, but there is a panegyric of the Bitters staring us in the face. Our readers will say that there must be a reason for all this praise. They are right. The efficacy of this celebrated medicine is established by evidence which it is impossible to doubt. Among the thousands who have borne testimony to its excellence, there is not one dissenter. Incurable disease seems to be unfailing. All diseases arising from a vitiated state of the blood are surely eradicated by it. It is an effective remedy for pulmonary complaints, bilious, remittent and intermittent fevers, rheumatism and dyspepsia. It purges the body of all unhealthy humors, gives tone to the system, and where the vital functions to vigorous and healthy action. All this it does more effectively because its operation is not interfered with by the presence of alcohol. The VINEGAR BITTERS is perfectly free from any such hurtful ingredient. We have always believed that plants contain the true remedies for disease, and all the remedies of real power, and we hope that he will not rest on his present discoveries.—[Com.]

The statistics of the Connecticut Insane Hospital, at Middletown, furnishes many interesting facts concerning the causes and cure for various types of mental aberration. Of the causes of insanity, ill health is more potent than any other; intemperance comes next, religious excitement next. Men patients are more easily cured than women, and out of twenty-two patients sent to the hospital for insanity resulting from the affections, four were men and eighteen were women.

THE PUREST AND SWEETEST COD-LIVER OIL is Hazard & Caswell's, made on the sea shore, from fresh, selected livers, of the Cod only. By Hazard & Caswell, New York. It is absolutely pure and sweet. Patients who have once taken it prefer it to all others. Physicians have decided it superior to all other oils in market.—[Com.]

OUR READERS should be careful to notice that FROST & GAMBLE'S Stamp is upon the bars of their Medicated German Soap, and all good articles they purchase, and this soap is so popular, other manufacturers have copied their stamp.

THE cathartics used and approved by the physicians comprising the various medical associations of this State are now compounded and sold under the name of PAIN KILLER-PURGATIVE PILLS.—[Com.]

CHOLERA AND PAIN KILLER.—Perry Davis' Pain Killer is an excellent remedy for the stomach and bowels, and should always be kept on hand, especially in the summer of the year, when so many suffer from bowel complaints. There is nothing so quick to relieve in Attacks of Cholera.

Sold at only 25 cents a bottle, by Merchants and medicine dealers generally.—[Com.]

If you desire rosy cheeks and a complexion fair and free from Pimples, Blotches and other eruptions, use the PAIN KILLER. Dr. Pierce's Golden Medical Discovery. It has no equal for this purpose.

SOMETHING THAT TAKES.—The three-fold combination agency for selling "What Wonders of the Boundless West." There is much sure money in it. See advertisement.

WHAT NEXT? The July number is out, and furnishes a most excellent array of contents. Its merits will entitle it to the extraordinary success which it has attained. A circulation, the publisher announces, of 30,000 copies, though only seventeen months old. Terms, 40 cents a year, with a very beautiful and valuable book free by the year. Cash in advance. Cash pay to the publisher. Specimen, three cents. JOHN B. ALDEN, Publisher, Chicago, Ill.

MINERAL SPRING HOUSE AND LIFTING CURE.—Open all the year with its Iron, Magnesia, and Sulphur Spring Waters; Water, Air, Vapor and Hydro-Electricity. Magnesia Bath. A Cure for Chronic Diseases and Diseases of Females. Send for circulars. Address: Morris, E. B., Superintendent, Ann Arbor, Mich.—[Com.]

WE copy the following from an exchange, which is important. It is: "A chronic diarrhoea of long standing, also dysentery, and all similar complaints common at this season of the year, can be cured by the use (internally) of Fowler's 'Wonders of the Boundless West.' We know of no other cure."—[Com.]

A BUSINESS THAT PAYS.—See advertisement in this issue, and Wonders of the Boundless West. One agent is clearing \$200 per week.

USE FROST'S CELEBRATED CIDER VINEGAR. Warranted to keep pickles. Take no other.

Suggestions for Summer. It is of great importance that the system should be in a vigorous condition when the hot weather commences. The effects of a high temperature upon a debilitated frame are always more or less disastrous. The loss of substance and the debilitation of nervous power, occasioned by excessive heat, can only be compensated by the active, healthful, and regular exercise of all the bodily functions by which the waste of nature is replenished and the vital energies renewed. The great utility of Hostetter's Stomach Bitters as a means of toning, invigorating and regulating the organs of the body, is universally acknowledged. As a tonic it stimulates the flagging appetite and accelerates digestion; as a corrective it neutralizes acidity of the stomach and relieves flatulency; as an alterative and mild aperient it regulates the liver and the bowels; as an anodyne it promotes tranquil sleep; as a wholesome stimulant it imparts firmness and elasticity to the relaxed and trembling nerves, and as a blood purifier it purifies the vital stream. The value of such a specific is inestimable, and it is safe and palatable. To invigorate the system by the salutary heat of mid-summer, it is as refreshing and vitalizing as the cool night dew to the sun-scorched flowers. Compounded of vegetable elements only, with a basis of pure mineral stimulants, it is safe and palatable, as well as medicinal. In fever and acute diseases, and wherever the natural conditions are conducive to epidemic disease, it is considered the best safeguard against malarious infection. They are not merely for intermittent and remittent fevers.

THE GRAND PACIFIC HOTEL.

One of the most marked institutions of the city of Chicago is the Grand Pacific Hotel. It is a noble and remarkable in New Chicago than the vast caravansaries that are to be seen in the metropolis of the continent. The largest of these, and the largest hotel structure in the world, is the Grand Pacific, a cut of which we give in this issue, at once the pride and the marvel of the city. The structure cost over one million dollars, and its furnishing by the lessee, Messrs. George W. Gage, David A. Gage and John A. Rice, nearly four hundred thousand dollars. The Grand Pacific is a masterpiece of modern architecture, and its location is one of the most desirable in the city. It is situated on the corner of La Salle and Quincy streets, opposite on La Salle street, the new Government building, and also occupying an entire square. The material of the front of the great hotel is the beautiful olive-oiled Ohio sandstone. The structure is a masterpiece of modern architecture, and its location is one of the most desirable in the city. It is situated on the corner of La Salle and Quincy streets, opposite on La Salle street, the new Government building, and also occupying an entire square.
